Child membership plans are available to children who have at least one parent/guardian registered under a membership plan at the practice.

How do these appointments help your child?

Dental health examinations provide:

- A clinical examination of their current dental health to catch developing problems early
- Small x-rays, where clinically necessary, for further assessment of their oral health
- Prevention advice and treatment, including fluoride varnish application to help prevent tooth decay and strengthen their teeth.

**We believe our membership plans are the best way to maintain your oral health, reducing the risk and cost of further treatment in the future.**

**Please speak to your dentist or our reception team if you would like more information or for details on how to register your child.**
